

## **Liability and Warranty**

While all of our items are guaranteed to meet specification as labeled and to be suitable for their labeled and/or intended use, our liability is limited to no charge replacement or refund of the original purchase price of unsatisfactory material. All statements, information and data given in this catalog (website) are believed to be accurate and reliable but are presented without guarantee, warranty or responsibility of any kind on our part either expressed or implied. Statements or suggestions concerning the possible use of our products are made without representation or warranty that any such use is free of patent infringement and are not recommendations to infringe any patent. All of our items, including all of our In Vitro Diagnostic items, have expiration dates on their labels, as appropriate. Most of our items have a shelf life in excess of two years when properly stored and handled. Items that have been opened may deteriorate more rapidly depending on how they are stored and handled, environmental conditions to which they are exposed, etc. We recommend that all items be tightly capped when not being actually used and that, once withdrawn, material should never be returned to the bottle from which it was taken. Some labels do contain information concerning signs of deterioration of the bottle's contents or statements concerning the need for periodic restandardization due to conditions beyond our control. We shall not be liable for any consequential, incidental or contingent damage whatsoever. We shall not be liable for any damages as a result of any delay in or failure to manufacture, ship and/or deliver material ordered due to any cause beyond our reasonable control. We reserve the right to allocate available supplies of any items on such basis, as we may deem fair and practical without any liability if shortages and/or delays for any reason occur.
