## Mercury Standard, 20 ppm Hg

**Lot Number:** SAMPLE**Product Number:** RTCLPHG**Manufacture Date:** N/A**Expiration Date:** N/A

This is a single element solution that was prepared volumetrically to contain the certified value reported. The uncertainty associated with the certified value is the sum of the estimated errors due to the purity of the raw material, the volumetric preparation of the solution, and transpiration of the solution through the container wall.

The final solution concentration is confirmed by AA, ICP, or ICP-MS, and is traceable to NIST Standard Reference Material 3133. All trace level elements were determined by ICP or ICP-MS.
