

Product Specification

CERTIFIED REFERENCE MATERIAL

Verispec® Buffer, Certified Reference Material, pH 9.00 ± 0.01 at 25°C
Manufactured and Tested in an ISO 17025/ISO 17034 Accredited Facility

Lot Number: SAMPLE

Product Number: RV159000

Manufacture Date: N/A

Expiration Date: N/A

The certified value for this product is confirmed in independent testing by a second qualified chemist.

The NIST Traceable pH value is certified to ±0.01 at 25 °C only. All other pH values at their corresponding temperatures are accurate to ± 0.05.

°C	10	15	20	25	30	35	40	45	50
pH	9.14	9.10	9.05	9.00	8.97	8.93	8.91	8.89	8.87

Name	CAS#	Grade
Water	7732-18-5	ACS/ASTM/USP/EP
Potassium Chloride	7447-40-7	ACS
Boric Acid	10043-35-3	ACS
Sodium Hydroxide	1310-73-2	Reagent
Preservative	Proprietary	

Test	Specification	Result
Appearance	Colorless liquid	Colorless liquid *Not a certified value.

Test	Certified Value	Uncertainty	NIST SRM#
pH at 25°C (Method: SQCP027, SQCP033)	8.990-9.010	0.018	186-I-g, 186-II-g, 191d

Concept of certification and traceability statement:

pH measurement and certification were performed in our Arlington, TX, Pocomoke City, MD, or Batesville, IN laboratory under ISO/IEC 17025 accreditation (ANAB Certificate L2387) and ISO 17034 accreditation (ANAB Certificate AR-3140) and are certified traceable to National Institute of Standards and Technology (NIST) Standard Reference Material as indicated above via an unbroken chain of comparisons. The reported expanded uncertainty of measurement is stated as the standard uncertainty of measurement multiplied by the coverage factor $k = 2$, which for a normal distribution corresponds to a coverage probability of approximately 95%. The standard uncertainty of measurement has been determined in accordance with the Guide to the Expression of Uncertainty in Measurement (GUM) using the uncertainty budget template available from NIST at https://www.nist.gov/system/files/documents/2017/04/28/uncertainty_budget_table_template_16jan2013.xlsx. Volumetric glassware complies with Class A tolerance requirements of ASTM E 288 and NIST Circular 434; it is calibrated before first use and recalibrated regularly in accordance with ASTM E 542 and NIST Procedure NBSIR 74-461. Balances are calibrated regularly with weights certified traceable to the NIST national mass standard. Thermometers and temperature probes are calibrated before first use and recalibrated regularly with a thermometer traceable to NIST standards. All products are prepared according to master documents that assure manufacture according to validated methods. Batch records document raw material traceability and production and testing history for each lot manufactured.

Level of homogeneity:

The solution was mixed according to an in-house procedure and is guaranteed to be homogeneous.

To ensure sufficient homogeneity, mix thoroughly by inversion prior to each use.

Intended use:

For Laboratory Use Only

This CRM is intended for:

Calibration of pH meters

Validation of analytical methods

This statement is not intended to restrict the use for other purposes.

Instructions for the correct use of this reference material:

Dispense just enough of this buffer for immediate use. Rinse electrode(s) with one portion of buffer using a second portion for calibration. Buffer should not be diluted or returned to the bottle. Keep container tightly closed when not in use. Store at room temperature, away from fumes of acids or bases.

The pH is certified at 25°C only. The pH values at other temperatures are calculated and not measured for individual lots.

Hazardous situation:

The normal laboratory safety precautions should be observed when working with this certified reference material. Refer to the Safety Data Sheet for detailed information on hazards associated with this material.

Part Number	Size / Package Type	Shelf Life (Unopened Container)
RV159000-1A	1 L natural poly	24 months
RV159000-500A	500 mL natural poly	24 months

Recommended Storage: 15°C - 30°C (59°F - 86°F)

This document is designed to comply with ISO 33401 "Reference Materials -- Contents of certificates, labels, and accompanying documentation."

Certificate # AR-3140
