

Certificate of Analysis

Bromine Water, Saturated, approximately 3% (w/v)

Lot Number: 4501K46

Product Number: 1195

Manufacture Date: JAN 22, 2025

Expiration Date: JAN 2026

Exercise care when opening the bottles since pressure may have developed, especially if the solution temperature has been raised. Keep container tightly capped when not in use. Refrigeration will help maintain the Bromine concentration by reducing the volatility of the Bromine.

Volumetric glassware complies with Class A tolerance requirements of ASTM E 288 and NIST Circular 434; it is calibrated before first use and recalibrated regularly in accordance with ASTM E 542 and NIST Procedure NBSIR 74-461. Balances are calibrated regularly with weights certified traceable to the NIST national mass standard. Thermometers and temperature probes are calibrated before first use and recalibrated regularly with a thermometer traceable to NIST standards. All products are prepared according to master documents that assure manufacture according to validated methods. Batch records document raw material traceability and production and testing history for each lot manufactured.
